DEFINITIONS :

FIAP/FIP DEFINITION OF MONOCHROME:

A Black and white work fitting from the very dark grey (black) to the very clear grey (white) is a monochrome Work with the various shades of grey. A black and white work toned entirely in a single

colour will remain a Monochrome work able to stand in the black and white category; such a work can be reproduced in black and white in the catalogue of a salon under FIAP Patronage. On the other hand a black and white work modified by a partial toning or by the addition of one colour becomes a colour work (polychrome) to stand in the colour category; such a work requires colour reproduction in the catalogue of a salon under FIAP Patronage.

FIAP/FIP DEFINITION OF COLOUR:

Entries must originate as photographs (image captured of objects via light sensitivity) made by the entrant on photographic emulsion or acquired digitally. Pictures on any subject including creative or experimental images can be submitted. Use of Computer generated graphics is totally restricted except in Creative thematic section. All element of the image must have been shot by the author. No part of the image should have been taken from Net or other person's image. Use of some filters available on net is permissible. Same images either colour or mono in two different section of the same Salon will result in disqualification for both the images.

FIAP DEFINITION OF WORLD IN FOCUS:

Just as with travel and tourism pictures, this section encompasses the full range of photographic genres from architecture, culture, events, food, landscape, portraits, etc.

A "WORLD IN FOCUS" image expresses the spirit of an era, the essence of a place or of a culture whether it is shown in an authentic scene or whether it is arranged. Digital manipulation to optimise an image in terms of fine-tuning of levels and colours is allowed as long as the image looks natural.

The same applies for removal of dust or digital noise. Techniques that add, relocate, replace, or remove any element of the original image, except by cropping, are not permitted.

FIAP/FIP DEFINITION OF NATURE:

Nature Photography is restricted to the use of the photographic process to depict all branches of natural history, except anthropology* and archaeology*, in such a fashion that a well-informed person will be able to identify the subject material and certify its honest presentation. (Suggested*: An example will be helpful to the New Jury). The story telling value of a photograph must be weighed more than the pictorial quality while maintaining high technical quality.

1. Human elements must not be present, except where those human elements are integral parts of the nature story such as nature subjects, like barn owls or storks, adapted to an environment modified by humans, or where those human elements are in situations depicting natural forces, like hurricanes or tidal waves.
2. Scientific bands, scientific tags or radio collars on wild animals are permissible.
3. Photographs of human created hybrid plants, cultivated plants, feral animals, domestic animals, or mounted specimens are ineligible.
4. Techniques that add, relocate, replace or remove any element of the original image, except by cropping, are not permitted. Conversion to infrared, either by digital technique or by original technique is not allowed. Stitching of two or more image is not permitted.
5. Complete conversion to grey scale Monochrome is allowed but without partial or complete toning.
6. It is perfectly legal to remove dust, flares or digital noise. Minor global colour / tone correction is OK as long as it is not selective and the final image looks natural but not dramatic. Dodge and Burn tool is for you only but use it judiciously. Selective darkening of background is prohibited. Techniques like panning, slow shutter speed or in exposure zooming are part of your creativity. Use of filters like Polarizers and NDs are ok.
7. Drone Photography in the National Parks of India is illegal except with prior written permission from the concerned authorities.

8. Welfare of the subject is extremely important. Use of live bait is totally prohibited. Relocated nest is a big NO and jury members should not award Nest images. Images entered in Nature section meeting the Nature Photography Definition above can have landscapes, geologic formations, weather phenomena, and extant organisms as the primary subject matter. This includes images taken with subjects in controlled conditions, such as zoos, game farms, botanical gardens, aquariums and any enclosure where the subjects are totally dependent on man for food.

NEW RULES OF FIAP (INFO 260/2023)

Pictures created by artificial intelligence are not allowed in this salon. It is reminded that all parts of the image have to be photographed by the author who is holding the copyright of all works submitted. Offenders will be sanctioned for life.
